

Guardr

Signature Security Specialist, LLC · Manager+ confidential

Company Information Package

Head-to-toe stakeholder briefing

Audience	Manager+ staff, counsel, advisors, investors, partners
Document date	September 10, 2026
Format	US Letter · print PDF
File	Guardr-Company-Information-Package.pdf
Operator	Signature Security Specialist, LLC

Confidential. For legal counsel, advisors, investors, and Manager+ staff only. Not a securities offering. Guards and clients contract directly — Guardr is a technology marketplace only.

Prepared for: Legal counsel, advisors, investors, partners, and other stakeholders

Legal entity: Signature Security Specialist, LLC

Product: Guardr — guardr.co

Tagline: *Anytime. Anywhere. Security, When You Need It.*

Document version: 1.0

Last updated: September 10, 2026

How to Use This Document

This is a **head-to-toe informational briefing** on Signature Security Specialist, LLC and its Guardr platform. It is designed to be handed to:

- **Legal advisors** — entity structure, marketplace positioning, regulatory context, agreements, and risk areas
- **General business advisors** — strategy, operations, market, and organizational model
- **Investors** — product readiness, unit economics, financial projections, funding ask, and milestones
- **Partners and other interested parties** — what Guardr is, how it works, and how to engage

Sections marked **(Gap)** indicate information not currently on file in company records and should be supplied separately before formal engagements.

For deeper detail, see the full business plan at [docs/business-plan.md](#) and the public product guide at [docs/guardr.md](#).

1. Company at a Glance

Field	Detail
Legal name	Signature Security Specialist, LLC
Entity type	Limited Liability Company (LLC)
State of operation	California (BSIS-aligned)
State of formation	(Gap — provide articles of organization / state of filing)
EIN / tax ID	(Gap — provide for counsel and investors under NDA)
Registered address	(Gap — available on request per Terms of Service)
Product brand	Guardr
Parent brand	Signature Security Specialist
Product website	https://guardr.co
Parent company website	https://www.signaturesecurityspecialist.com
Support	support@guardr.co
Legal	legal@guardr.co
Privacy	privacy@guardr.co
Product version	v1.0.131-beta

Field	Detail
Launch status	Live production (v1.0 beta launched June 2026)
Geography	California launch; multi-state expansion planned
Repository	TheMarkkBradonCollective/Guardr (private)

2. What Guardr Is (and Is Not)

What it is

Guardr is a **map-first, on-demand technology marketplace** that connects:

- **Clients** (businesses, venues, property owners, and individuals) who need licensed security coverage
- **Guards** (independent, licensed security professionals) who browse and accept work directly
- **Staff** (W-2 employees of Signature Security Specialist, LLC) who operate the platform

The platform handles discovery, credential verification, booking, in-app payments (Stripe Connect), live shift tracking, self-audit photo verification, incident/activity reporting, and post-shift documentation.

What it is not

Guardr is explicitly **not**:

- A private patrol operator (PPO)
- A security guard employer
- A staffing agency
- A licensed security services provider

Guards and clients contract directly for each job. Guardr facilitates the connection, payment, and recordkeeping — it does not dispatch, assign, employ, or supervise field security work.

One-sentence summary

Guardr makes licensed security coverage as accessible and transparent as ordering a ride — while preserving guard independence and direct accountability between guards and clients.

3. Mission, Vision, and Values

Mission

Make licensed security coverage as accessible and transparent as ordering a ride — while preserving the independence of guards and the direct accountability between guards and clients.

Vision

Become the trusted compliance-first marketplace for independent security professionals, starting in California and expanding state by state as credential and regulatory frameworks allow.

Core values

1. **Compliance first** — BSIS credential requirements are built into onboarding, not bolted on

2. **Transparency** — Rates, fees, and guard credentials are visible before booking
3. **Independence** — Guards choose jobs; clients approve who works their site
4. **Accountability** — Self-audits, live tracking, and post-shift reports create a documented record
5. **Technology, not dispatch** — We connect; we do not assign or employ guards

4. Corporate Structure

Signature Security Specialist, LLC

Participant relationships

Participant	Legal relationship	Compensation
Guards	Independent contractors (ICA per job)	Paid via Stripe Connect (~48 hr after shift completion)
Clients	Direct service arrangement with guards	Pay client hourly rate in-app at booking
Staff	W-2 employees of Signature Security Specialist, LLC	Revenue share (~50% of platform fees) + Prop 22 hourly add-ons + bonuses

Android / app identity

Item	Value
Android package ID	com.signaturesecurity.guardr
Keystore legal name	Signature Security Specialist LLC, California, US

5. Leadership and Team

Key leadership (platform seed data)

Name	Role	Email	Summary
Markeith White (displayed as M. White)	Founder & Platform Governance	m.white@signaturesecurityspecialist.com	Founded Guardr; sets platform policy, approves executive staff, manages city rollouts
Tyrone Johnson	Director of Platform Operations	t.johnson@signaturesecurityspecialist.com	Day-to-day operations: credential reviews, job flow, payouts, disputes

Staff role hierarchy

Role	Focus	Default revenue share
Support	Help desk, incident review	4%
Moderator	Application intake approval	6%
Administrator	Credential verification, disputes, suspensions	7%
Manager	Team oversight, SLA management	10%
Director	Full operations, financial controls	11.1%
Founder	Platform governance, strategy	11.9%

Staff compensation = ~50% of collected platform fees (split by role) + Prop 22 hourly add-ons (\$18–\$40/hr tracked via timesheets) + manual bonuses. Paid weekly via Stripe Connect.

Hiring plan

Role	Year 1	Year 2
Founder / CEO	1	1
Director of Operations	1	1
Administrators	2	4
Moderators	1	2
Support	1	2
Part-time sales / BD	1	2

Advisory needs (identified)

- **Legal:** Marketplace/IC classification, BSIS regulatory counsel, insurance
- **Finance:** Unit economics modeling, fundraising, 1099 reporting
- **Industry:** Former PPO executives, BSIS training providers, event security operators

Cap table and ownership (Gap)

Ownership percentages, member interests, and any existing investor agreements are not included in this package. Provide separately under NDA for legal and investor review.

6. Product Overview

Three-sided marketplace

STAFF (operations)

Client features

Feature	Personal account	Business account
Guards per request	Up to 4	Up to 50
Job posting	✓	✓
Sites & rosters	—	✓
Live coverage dashboard	✓	✓
Formal invoicing & reports	Basic	Full reporting suite
Open-contract pricing	✓	✓
Trusted-client auto-publish	—	Configurable

Guard features

- Map-first job discovery with distance, rate, and type filters
- Credential wallet (government ID, BSIS guard card, COI, PTA/UOF, 32-hour CE package)
- Shift lifecycle: heading → arrive (GPS) → start → self-audit → work → end
- On-shift tools: incident reports, activity logs, client messaging, pre-shift briefing
- Earnings via Stripe Connect with ~48-hour payout release
- Performance tiers (Overall / Standing / Driving priority)
- Vehicle profile for patrol/driving jobs
- Guard community chat (guards + staff)

Staff / operations features

- Approval queues for guards, clients, staff, and jobs
- Credential verification with expiry alerts
- SLA dashboard (approval time, fill time, no-show rate)
- Dispute resolution and payment holds
- Platform analytics and financial controls (Director+)
- Service area management (city-level within California)
- Broadcast notifications
- Immutable audit log

Job status flow

Draft → Pending Review → Open → Accepted → In Progress → Completed → Closed

Distribution channels

Channel	Status
Web (guardr.co)	Live
PWA (installable)	Live

Channel	Status
Android APK (sideload)	Live — guardr.co/download
Google Play	Listing prepared; AAB build pending keystore secrets
iOS App Store	Scaffolded; pending Apple Developer account

Shipped platform capabilities (v1.0)

- Supabase Auth bridge (PBKDF2 password hashing)
- Role-based row-level security (RLS)
- Trusted-client auto-publish
- Audit log and SLA dashboard
- Guard availability calendar
- Client invoicing
- Offline sync (IndexedDB queue for field records)
- Onboarding tours and compliance alerts
- CI/CD (GitHub Actions + Playwright E2E)
- Rate limiting and Sentry scaffold
- Capacitor Android APK

7. Technology Stack

Layer	Technology
Frontend	React 19, Vite 6, Tailwind CSS 4, Base Web
Backend / database	Supabase (PostgreSQL + RLS)
Auth	Supabase Auth + PBKDF2 bridge (/api/auth/bridge)
Payments	Stripe Connect (primary); Square also integrated
Maps	Leaflet + react-leaflet
Push notifications	Web Push (VAPID) + FCM (Android)
Mobile	Capacitor 7 (Android APK; iOS scaffolded)
Hosting	Vercel (guardr.co)
Design system	Base Web + Guardr-branded themes

Cross-platform surfaces

One codebase delivers web, PWA, and native shells across three independent surface applications:

Surface	Primary users	Shell
Mobile	Guards, clients	Bottom tab bar
Tablet	Staff, guards, clients	Side rail
Desktop	Staff ops, admin	Sidebar + command palette

Breakpoints: 744px (mobile/tablet), 1180px (tablet/desktop).

Background jobs (cron)

Job	Cadence
Missed check-ins	Every 5 minutes
Pre-shift briefings	Every 5 minutes
Company placard expiry	Daily

Optional integrations (env-configured)

Twilio (SMS), Checkr (background checks), insurance verification API, Sentry error monitoring.

Database

Single source of truth: supabase/complete_schema_setup.sql (idempotent).

8. Market and Competition

Market size (California)

Segment	Estimate
CA private security market	~\$2.3B/year
Licensed guards (CA)	351,170
Licensed security companies (PPOs)	~5,700
Unarmed guard hourly rate	\$25–\$45/hr
Armed guard hourly rate	\$45–\$85/hr

Target customer segments

Primary — business clients: Event organizers, retail/hospitality, construction, property management, corporate campuses.

Secondary — personal clients: Individuals (capped at 4 guards per request).

Supply — guards: Part-time and full-time independents, specialized (armed, executive protection, medical).

Competitive positioning

vs.	Guardr advantage
Traditional PPOs	Speed, choice, transparency, lower overhead
Job boards / classifieds	Credential verification, payments, shift tracking
Guard management SaaS	Full marketplace, not just workforce tools
General gig platforms	Security-specific BSIS compliance and workflows

Launch cities (California)

1. Greater Los Angeles
2. Inland Empire
3. Orange County
4. San Diego
5. Bay Area (Phase 2)

3-year growth targets (base case)

Metric	Year 1	Year 2	Year 3
Active guards	500	2,000	5,000
Active clients	100	400	1,000
Monthly shifts	1,200	5,000	15,000
Annual GMV	\$3.3M	\$20.2M	\$60.5M
Platform revenue	\$430K	\$2.8M	\$7.9M

9. Business Model and Unit Economics

Revenue model

Transactional platform fees only — no subscription fees. Fee deducted from client hourly rate before guard pay. Fees **snapshot at job creation**; changes do not affect existing jobs.

Fee models (configurable in Staff → Payment settings)

Model	Description	Default
Flat	Fixed \$/hr per account type	\$5/hr personal, \$6/hr business
Percent	% of client rate with min/max caps	15%
Tiered	Fee scales with hourly rate bands	Legacy (migrated to flat)

Example economics (\$35/hr client rate, flat \$5 model)

Party	Amount
Client pays	\$35/hr
Guard receives	\$30/hr
Platform fee	\$5/hr

Unit economics — single 8-hour shift

Line item	Amount
Client pays (gross)	\$280.00
Guard receives	\$240.00

Line item	Amount
Platform fee	\$40.00
Stripe processing (~2.9% + \$0.30)	~\$8.42
Staff revenue share (~50%)	\$20.00
Net to company	~\$11.58 (~4.1% of GMV)

Payment flow

1. Client pays by card at booking (Stripe)
2. Job completes
3. Guard payout released ~48 hours after completion
4. Disputes can hold payout until Director/Founder resolution

Key metrics (Month 12 targets)

Metric	Target
GMV	\$274K/mo
Take rate	~14.5%
Fill rate	> 80%
Time to fill	< 4 hours
Client retention	> 60%
CAC (business client)	< \$500
CAC (guard)	< \$100

10. Financial Projections

Year 1 targets (base case)

Metric	Target
Active guards	500
Active business clients	75
Monthly completed shifts	1,200
Average shift length	6 hours
Average client rate	\$38/hr
Annual GMV	~\$3.3M
Annual platform revenue	~\$430K
Net revenue (after staff share and Stripe)	~\$116K
Year 1 net income	(\$164K) — investment phase

3-year P&L summary (base case)

	Year 1	Year 2	Year 3
Net revenue	\$116K	\$795K	\$2.2M
Operating expenses	(\$280K)	(\$580K)	(\$950K)
Net income	(\$164K)	\$215K	\$1.25M

Break-even

Expected at **Month 10–12** (base case), ~2,400 shifts/month.

Scenario analysis (Year 1)

Scenario	Annual shifts	Net income
Conservative (50% of base)	3,600	(\$222K)
Base	7,200	(\$164K)
Aggressive (150% of base)	10,800	(\$106K)

Technology operating costs (estimated)

System	Monthly
Vercel	\$20–\$200
Supabase	\$25–\$100
Stripe	2.9% + \$0.30/transaction
Sentry	\$0–\$26

Insurance (projected, not on file)

General liability, E&O, and cyber insurance budgeted at \$25K (Year 1), \$40K (Year 2), \$60K (Year 3). **(Gap)** — policy documents and carrier details not included.

11. Funding**Ask**

\$500K–\$750K seed round for 18 months of runway to reach profitability.

Use of funds (\$600K midpoint)

Category	Amount	%	Purpose
Guard & client acquisition	\$200K	33%	Incentives, marketing, sales
Team (operations & support)	\$150K	25%	Administrators, moderators, support
Technology & distribution	\$75K	13%	Google Play, iOS, App Store assets
Legal & compliance	\$75K	13%	Regulatory counsel, insurance, IC classification

Category	Amount	%	Purpose
Reserve / contingency	\$100K	17%	Buffer for disputes, slow growth, regulatory changes

Milestone-based tranches (if structured)

Tranche	Amount	Milestone
1	\$300K	200 activated guards; 25 business clients
2	\$200K	500 guards; 75 clients; 1,000 monthly shifts
3	\$100K	Google Play live; break-even trajectory visible

Capital efficiency highlights

- Product is **already built and live** — funding targets growth, not engineering
- Asset-light model: no vehicles, uniforms, or guard payroll
- Staff compensation tied to revenue (50% of fees) aligns incentives

Investor demo access

Demo accounts are available for product walkthroughs. Contact the founder for credentials or run `supabase/investor_demo_accounts.sql` in a staging environment.

12. Legal Framework

Published legal documents

Document	Version date	Required for	Public URL
Terms of Service	2026-06-22	All roles	https://guardr.co/legal/terms
Privacy Policy	2026-06-22	All roles	https://guardr.co/legal/privacy
Independent Contractor Agreement (ICA)	2026-06-25	Guards	In-app
Client Platform Agreement	2026-06-25	Clients	In-app
Guard Code of Conduct	2026-06-25	Guards	In-app
Equal Opportunity / Veterans / Disabled notice	2026-08-27	Public	In-app

Source code for all legal text: `src/lib/legalContent.ts`

Core legal thesis

1. **Platform only** — Guardr is a technology marketplace, not a PPO, employer, or staffing agency
2. **Direct engagements** — Guards and clients contract directly per job; Guardr is not a party to the underlying security services contract
3. **Independent contractors** — Guards choose jobs, set/propose rates, and control their schedule
4. **Administrative credential review** — Staff review is eligibility screening only, not a guarantee of suitability or safety
5. **No outcome guarantee** — Security work involves inherent risk; liability is disclaimed to the maximum extent permitted by law

6. Payment facilitation — Stripe collection does not create an employment or agency relationship

Key legal provisions (Terms of Service)

Provision	Detail
Governing law	State of California
Dispute resolution	Binding individual arbitration (30-day opt-out via legal@guardr.co)
Liability cap	Greater of \$100 or 12 months of platform fees paid
Indemnification	Users indemnify the company for claims arising from their use, services, or violations
Regulatory compliance	Guards must maintain all required licenses; clients must use licensed personnel where required

California BSIS credential requirements (platform-enforced)

Credential	Required
Government ID	Yes
BSIS Guard Card	Yes
Certificate of Insurance (COI)	Yes
Power to Arrest / Use of Force	Yes
32-hour BSIS training block (9 certificates)	Yes
Firearm permit	Optional (armed jobs)
Baton permit	Optional

Guard activation workflow

1. Guard uploads 5 required credentials
2. Staff verifies documents (target: < 24 hours)
3. Guard connects Stripe Connect bank account
4. Account activated → guard appears on map

Documents not in this package (Gap)

- Articles of organization / operating agreement
- EIN confirmation letter
- Insurance policies (GL, E&O, cyber)
- Signed investor agreements or term sheets
- Cap table
- Registered agent details and physical mailing address

13. Operations

Daily operations cadence

Function	Owner	Cadence
Guard/client application review	Moderator + Administrator	Daily
Credential verification	Administrator	Daily
Job approval (non-trusted clients)	Administrator	Daily
Dispute resolution	Administrator + Director	As needed
Payment pipeline & payouts	Director	Daily
SLA monitoring	Manager + Director	Weekly
Compliance expiry scans	Automated cron + Administrator	Daily
Platform health & incidents	Director + Founder	Continuous

Go-to-market phases

Phase 1 (Months 1–6): Supply-first — Recruit 200 activated guards in LA + Inland Empire via BSIS schools, social groups, referral bonuses.

Phase 2 (Months 4–12): Demand activation — Direct B2B sales to event companies, property managers, construction firms. Founding client program (reduced fees for first 25 business accounts). Target: 75 business clients, 1,200 monthly shifts.

Phase 3 (Months 12–24): Growth & distribution — Google Play and iOS launch, SEO, partnerships, referral programs. Target: 2,000 guards, 400 clients, 5,000 monthly shifts.

14. Risk Register

Regulatory and legal

Risk	Impact	Likelihood	Mitigation
Misclassification as PPO	High	Low	Clear legal positioning; no dispatch; direct guard/client contracts; legal counsel
IC misclassification (guards)	High	Medium	ICA per job; guards control schedule; platform does not supervise field work
BSIS rule changes	Medium	Low	Monitor BSIS agendas; configurable credential system
Liability for guard actions	High	Medium	Disclaimers; liability cap; require guard COI; client assumes site liability

Market

Risk	Impact	Likelihood	Mitigation
Cold-start (chicken-and-egg)	High	High	Supply-first strategy; founding client program; geographic focus

Risk	Impact	Likelihood	Mitigation
Agency retaliation	Medium	Medium	Target underserved on-demand segments; compete on speed and transparency
Slow client adoption	High	Medium	Direct sales; founding client incentives; case studies
Guard churn	Medium	Medium	Fast pay (48 hr); performance rewards; community features

Operational

Risk	Impact	Likelihood	Mitigation
Credential fraud	High	Medium	Manual staff verification; expiry alerts; audit log
No-shows	Medium	Medium	No-show detection workflow; replacement flows; performance tiers
Payment disputes	Medium	Medium	Dispute resolution process; payout holds
Platform downtime	High	Low	Vercel hosting; CI/CD; Sentry; offline sync for guards

Financial

Risk	Impact	Likelihood	Mitigation
Staff share at 50% compresses margin	Medium	High	Scale GMV; adjust share as revenue grows; automate ops
Stripe chargebacks	Medium	Low	Clear client agreements; dispute process; hold periods
Slower growth than projected	High	Medium	Conservative scenario planning; milestone-based spending; 17% reserve

15. Roadmap and Milestones

Completed (as of September 2026)

- ☒ Production platform live at guardr.co
- ☒ Three-sided marketplace (clients, guards, staff)
- ☒ Stripe Connect payments and guard payouts
- ☒ BSIS credential verification workflow
- ☒ Self-audit, live tracking, incident/activity reports
- ☒ Web + PWA + Android APK
- ☒ Comprehensive legal framework
- ☒ User manuals (PDF) for all roles
- ☒ CI/CD, E2E tests, investor demo readiness

Q3 2026

- ☐ Google Play Store launch
- ☐ First 100 activated guards
- ☐ First 10 paying business clients

- ☐ LA + Inland Empire service areas active

Q4 2026

- ☐ 500 activated guards
- ☐ 75 business clients
- ☐ 1,000 monthly completed shifts
- ☐ iOS App Store submission
- ☐ Seed fundraising close

2027

- ☐ 2,000 guards, 400 clients, 5,000 monthly shifts
- ☐ Bay Area and San Diego expansion
- ☐ Enterprise client program
- ☐ Break-even on operating income
- ☐ Evaluate Nevada, Arizona, Texas

2028+

- ☐ Multi-state expansion with per-state credential systems
- ☐ Enterprise API integrations
- ☐ Premium guard tiers (armed, executive protection)
- ☐ Series A for national expansion

17. Glossary

Term	Definition
BSIS	Bureau of Security and Investigative Services (California)
COI	Certificate of Insurance
GMV	Gross Merchandise Volume (total client spend)
ICA	Independent Contractor Agreement
PPO	Private Patrol Operator (licensed security company)
PTA/UOF	Power to Arrest / Appropriate Use of Force training
RLS	Row Level Security (database access control)
SAM	Serviceable Addressable Market
SOM	Serviceable Obtainable Market
Take rate	Platform fee as % of GMV

18. Information Gaps Checklist

The following items should be gathered and appended (or provided under NDA) before formal legal, investment, or partnership engagements:

- ☐ State of LLC formation and date of organization
- ☐ EIN / tax identification number
- ☐ Registered agent name and address
- ☐ Physical business address and mailing address
- ☐ Operating agreement and member ownership percentages
- ☐ Cap table and any existing investor instruments
- ☐ Insurance policies (GL, E&O, cyber) with carrier and coverage limits
- ☐ Banking relationship details (for due diligence)

- ☐ Actual operating metrics (guards activated, clients, monthly shifts) as of current date
- ☐ Signed contracts with key vendors (Stripe, Supabase, Vercel)
- ☐ Any pending or threatened litigation
- ☐ BSIS or other regulatory correspondence

19. Contact for Follow-Up
