Company

Legal entity	Signature Security Specialist, LLC
Product	Guardr — guardr.co
Positioning	California-aligned technology marketplace connecting licensed security guards with clients
What we are not	PPO, guard employer, staffing agency, or licensed security services provider
Status	Live production (v1.0 beta, launched June 2026)
Geography	California (BSIS-aligned); multi-state expansion planned

Tagline: *Anytime. Anywhere. Security, When You Need It.*

Problem & Solution

Problem: Hiring licensed security in California is slow, opaque, and agency-centric. Guards lack a direct channel to find work; clients wait days for quotes with little visibility into who is on site.

Solution: Guardr is a map-first marketplace where guards browse and accept jobs directly and clients approve who works their site. The platform handles credential verification, booking, in-app payments, live shift tracking, and post-shift reporting.

Business Model

Transactional platform fees only — no subscriptions. Fee embedded in client hourly rate at booking.

Party	Example (\$35/hr client rate)
Client pays	\$35/hr
Guard receives	\$30/hr
Platform fee	\$5/hr

Unit economics (8-hr shift): ~\$40 platform fee → ~\$11.58 net to company after Stripe and staff share (~4.1% of GMV).

Market (California)

Segment	Size
Private security market	~\$2.3B/year
Licensed guards	351,000+
Licensed security companies (PPOs)	~5,700

Launch cities: Greater LA, Inland Empire, Orange County, San Diego; Bay Area Phase 2.

Traction & Product

- Production platform live: web, PWA, Android APK
- Three-sided marketplace: clients, guards, staff operations

- Stripe Connect payments with automated guard payouts
- BSIS credential verification (guard card, COI, PTA/UOF, 32-hour training)
- Comprehensive legal framework (Terms, Privacy, ICA, client agreement, guard conduct)
- Investor-demo-ready since July 2026

Financial Highlights (Year 1 Base Case)

Metric	Target
Active guards	500
Business clients	75
Monthly shifts	1,200
Annual GMV	~\$3.3M
Platform revenue	~\$430K
Break-even	Month 10–12

Funding Ask

\$500K–\$750K seed for 18 months: guard/client acquisition (33%), team (25%), technology/distribution (13%), legal/compliance (13%), reserve (17%).

Product is built — funding targets growth, not engineering.
